Greetings from D.A.V International School, Ahmedabad

**Concern:** Every household today has an abundance of things which are well maintained yet are not of any use. On the other hand there are people for whom these items can be of primary need.

**Challenge:** We face following challenges while we discard these well used items

1. How to discard it? Throw or Recycle?
2. Where to dump it? Or can we Re-Use or donate it? Re-Circulate It?

**Change:** So Yes, why not re-circulate with our contribution for someone as per their needs: Our precious possessions rather than going in the trash, can be a treasure for many.

Like last year Aasmaan Foundation has taken initiative to ensure that anything we donate actually becomes useful to someone in real sense. They are going to set up a "Dummy Shopping Mall" by collecting and displaying things that are donated by the people of Ahmedabad.

Aasmaan foundation wants:

1. to give underprivileged children an extreme unique shopping opportunity using artificial currency which will give them a sense of ownership instead of donation,
2. To encourage the eco-friendly behaviour through 3R policy - i.e Reduce, Reuse and Recirculate amongst the citizens.

We, DAV family support this noble effort wholeheartedly. Therefore we invite our students to donate the well maintained unwanted goods of their household to the Aasmaan Foundation. Students can also purchase the new items if they want to donate the goods to underprivileged children.

Parents of our school along with their children are most welcome to visit their venue on the given date to experience something unique and wonderful.

Interested parents can also volunteer the sponsorship of food/sport/games or even any other activities if they can do with the kids.

We have attached the list of items that can be given/purchased for donation. You have to donate items as per the list attached. Following are the details:
