

CHEMISTRY LAB

"Laboratory is a place where young minds can unleash their imagination and creativity."

Chemistry lab provide students with various opportunities to learn and experiment, which plays a crucial role in the ongoing intellectual development of students at any academic level.

Significance of a Chemistry lab:

- It is a workplace for the conduct of scientific research.
- It helps students to remember the concepts better and to transfer the experience to real-life situations
- It is a facility that provides controlled conditions in which scientific research, experiments and measurements may be performed.

Features of our chemistry laboratory:

Our chemistry lab is well equipped with chemicals and other apparatus to cater to the needs of all the students up to class XII. The Chemistry lab is made accessible to students from class VI onwards. It helps to ignite their scientific temper from a young age. The lab has an excellent safety system with fire extinguishers.

The lab inculcates curiosity and inquisitiveness in students. It plays a very important role in developing scientific temperament in students.
