*In the current times, the institutional structure across different job avenues requires a solid command over languages. As languages are the voices of our thoughts, we tend to be more efficacious if we are effective in communication. DAV Literature Conclave is an endeavor that aims to be a touchstone in the vision of making our students competent in English and other languages.*

*DAV Public School Pokhariput Literature Conclave is a branch in the magnificent vision of the collaborative effort between DAV Centre of Academic Excellence & DAV United. This one-day event will see eminent guests from the field of art, academic, entertainment and literature.*

*I, on behalf of my entire staff, welcome you to experience the intellectual rigor of the Literary Conclave. I am assured that the diverse take aways from this conclave will empower us to resuscitate our interest in Literature and galvanize an inkling of languages in all of us.*
